

# MLCC with dipped radial lead

(Halogen-free, automotive grade, high temperature application)

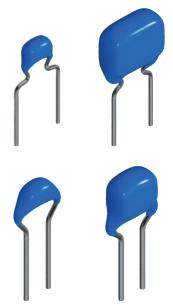

# FA series (NP0, X8R)

Type: Lead pitch 5.0 mm

FA28 [4.0x5.5 mm] FA24 [4.5x5.5 mm] FA26 [5.5x6.0 mm] FA20 [5.5x7.0 mm] FA22 [7.5x8.5 mm] FA23 [8.5x11.0 mm]

Lead pitch 2.5 mm

FA18 [4.0x5.5 mm] FA14 [4.5x5.5 mm] FA16 [5.5x6.0 mm] FA11 [5.5x7.0 mm]

### REMINDERS FOR USING THESE PRODUCTS

Before using these products, be sure to request the delivery specifications.

#### SAFETY REMINDERS

Please pay sufficient attention to the warnings for safe designing when using this products.

#### REMINDERS

1. The products listed in this specification are intended for use in automotive applications under normal operation and usage conditions. The products are not designed or warranted to meet the requirements of the applications listed below, whose performance and/or quality requires a more stringent level of safety or reliability, or whose failure, malfunction or defect could cause serious damage to society, person or property.

Please understand that we are not responsible for any damage or liability caused by use of the products in any of the applications below or for any other use exceeding the range or conditions set forth in this specification sheet. If you intend to use the products in the applications listed below or if you have special requirements exceeding the range or conditions set forth in this specification, please contact us.

- (1) Aerospace/aviation equipment
- (2) Transportation equipment (electric trains, ships, etc.)
- (3) Medical equipment (excepting Pharmaceutical Affairs Law classification Class1,2)
- (4) Power-generation control equipment
- (5) Atomic energy-related equipment
- (6) Seabed equipment
- (7) Transportation control equipment

- (8) Public information-processing equipment
- (9) Military equipment
- (10) Electric heating apparatus, burning equipment
- (11) Disaster prevention/crime prevention equipment
- (12) Safety equipment
- (13) Other applications that are not considered general-purpose applications

When designing your equipment even for general-purpose applications, you are kindly requested to take into consideration securing protection circuit/device or providing backup circuits in your equipment.

In addition, although the products listed in this specification are intended for use in automotive applications as described above, they are not prohibited to use in general electronic equipment, whose performance and/or quality doesn't require a more stringent level of safety or reliability, or whose failure, malfunction or defect could not cause serious damage to society, person or property. Therefore, the description of this caution will be applied, when the products are used in general electronic equipment under a normal operation and usage conditions.

- 2. We may modify products or discontinue production of a product listed in this catalog without prior notification.
- 3. We provide "Delivery Specification" that explain precautions for the specifications and safety of each product listed in this catalog. We strongly recommend that you exchange these delivery specifications with customers that use one of these products.
- 4. If you plan to export a product listed in this catalog, keep in mind that it may be a restricted item according to the "Foreign Exchange and Foreign Trade Control Law". In such cases, it is necessary to acquire export permission in harmony with this law.
- 5. Any reproduction or transferring of the contents of this catalog is prohibited without prior permission from our company.
- 6. We are not responsible for problems that occur related to the intellectual property rights or other rights of our company or a third party when you use a product listed in this catalog. We do not grant license of these rights.
- 7. This catalog only applies to products purchased through our company or one of our company's official agencies. This catalog does not apply to products that are purchased through other third parties.

### MLCC with dipped radial lead

Product compatible with RoHS directive Halogen-free

Halogen-free, automotive grade, high temperature application

### Overview of the FA series

#### **FEATURES**

- A lineup with a rated voltage of 25V to 630V.
- $\bigcirc$  Compatible with a wide capacitance range of 10pF to 4.7 $\mu$ F.
- O For guaranteed applications withstanding rigorous temperature environments of up to 150°C.
- O The FA series for automotive use is AEC-Q200 compliant.

#### APPLICATION

- O Noise reduction measures for various motors for automotive use
- Resonant circuits in areas such as keyless entry systems
- O Bypass capacitors such as for switching power sources, smoothing capacitors, etc.
- O Snubber circuits
- OPFC input filters

|   |              |   |                  | 3 | 8.5x11.0x5.5                |     |  |    |                      |     |                   |   |                       |               |   |                      |

<sup>\*</sup> Applicable capacitance range: Max. 10 pF for D, over 10 pF for J and K.

#### OPERATING TEMPERATURE RANGE

| Conscitones temperature                 | Temperature range*    |                       |  |  |  |
|---|-----------------------|-----------------------|--|--|--|
| Capacitance temperature characteristics | Operating temperature | Storage temperature** |  |  |  |
| Characteristics                         | (°C)                  | (°C)                  |  |  |  |
| NP0, X8R                                | -55 to +150           | -55 to +150           |  |  |  |

<sup>\*</sup>The maximum operating temperature includes capacitor self-generated heat of up to 20°C.

<sup>\*\*</sup>Applied to the TDK's standard specification products.

<sup>\*\*</sup>The storage temperature range is for after the circuit board is mounted.

RoHS Directive Compliant Product: See the following for more details. https://product.tdk.com/info/en/environment/rohs/index.html

O Halogen-free: indicates that CI content is less than 900ppm, Br content is less than 900ppm, and that the total CI and Br content is less than 1500ppm.
